

About Us

Since the beginning of a journey woven with passion and innovation, Asra Mobilya has served as a benchmark in the field of furniture and decoration since 1995. Our refined taste and deep commitment to the industry have established us as one of Turkey's most preferred brands over time.

To date, we have provided solution partnerships to over 1,000 prestigious brands and architectural firms both domestically and internationally. Asra Mobilya has become one of the most sought-after names in the sector, particularly regarding exhibition and retail furniture solutions. Rooted in traditional craftsmanship with over 25 years of experience, our core principle is to realize the vision of our business partners by combining the finest materials with top-tier craftsmanship and service.

In 2020, under the Asra Trend brand, we embraced the winds of digital transformation and ventured into the vast world of e-commerce. Through this new platform, we aim to enhance living spaces by offering high-quality furniture products to customers throughout Turkey.

By blending traditional furniture concepts with modern lines, we design functional products that meet the requirements of a minimal lifestyle, tailored to contemporary urban architecture.

In our 5,000-square-meter production facility, powered by AI-supported automation systems, we strive to exceed customer expectations by crafting every piece of furniture from meticulously selected materials. As a platform where technology and art converge, Asra Trend is dedicated to providing an unparalleled experience to its customers.

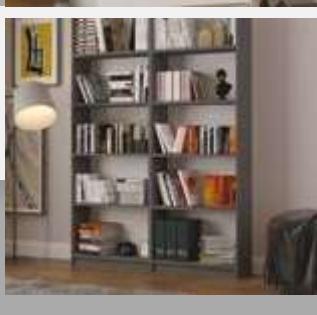

Our Mission:

Asra Trend's mission is to serve as a symbol of quality and innovation in the constantly evolving furniture and decoration industry. By entering the e-commerce arena, we aim to leverage the infinite possibilities of technology to reach every corner of Turkey. By harnessing the power of artificial intelligence and automation combined with limitless creativity, we aim to meet and exceed our customers' needs.

Our Vision:

Asra Trend is a brand dedicated to adding aesthetics and functionality to living spaces through a creative vision. We aim to design unique and functional furniture by merging cutting-edge technology with creative design. Utilizing the exceptional opportunities of digital transformation, we strive for leadership in the e-commerce sector while maintaining an environmentally sensitive and sustainable production philosophy. Through our customer-centric services, we aim to solidify our innovative and leading position in the industry.

Product Specifications and Technical Details

Model: Asra Trend BD-03

• Color Options: Maple, White, Dark Grey, Ash Grey, Nevada, Sapphire Oak, Sonoma

• Material Structure: The entire body is manufactured from 100% MDF-LAM material, which is resistant to scratches and moisture.

• Interior Design / Functions:

• Over-the-Washing Machine Organizer: Designed to fit perfectly over standard washing machines, it allows you to utilize the idle vertical space in your bathroom with maximum efficiency.

• Fully Open Shelf System: A doorless, fully open shelf concept that provides instant access to all your items and adds a spacious look to your bathroom.

• Multi-Dimensional Shelf Spaces: While providing spacious areas for your folded towels thanks to its numerous shelves of various sizes, the narrower shelves on the side are ideal for perfumes, cotton pad holders, or small decorative objects.

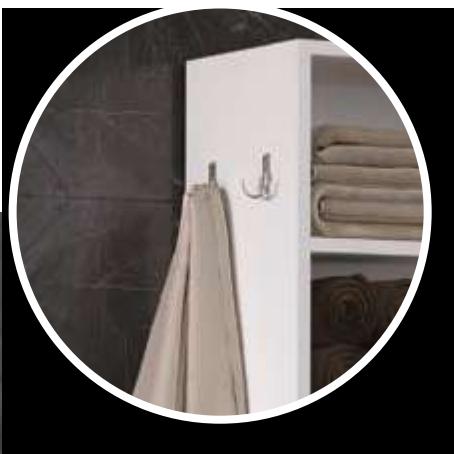

- Side Hanger Hooks: Two metal hooks mounted on the side of the cabinet provide extra functionality for hanging your bathrobes or towels.

- Back Panel: 4 mm MDF-LAM panel is used, which increases the overall durability and stability of the product.

- Edge Banding: PVC edge bands are used on all edges to prevent deformation and provide aesthetic integrity.

- Connection System: By using Minifix fasteners at all connection points, a sturdy structure is provided, offering the possibility of being disassembled and reassembled multiple times.

METAL STUDY DESK WITH BOOKSHELF

Product Specifications and Technical Details

Model: METALKM01

• Material Structure: Shelves and table surface are manufactured from scratch-resistant 100% MDF-LAM material. The frame system consists of static oven-painted sturdy metal profiles.

• Interior Design / Functions:

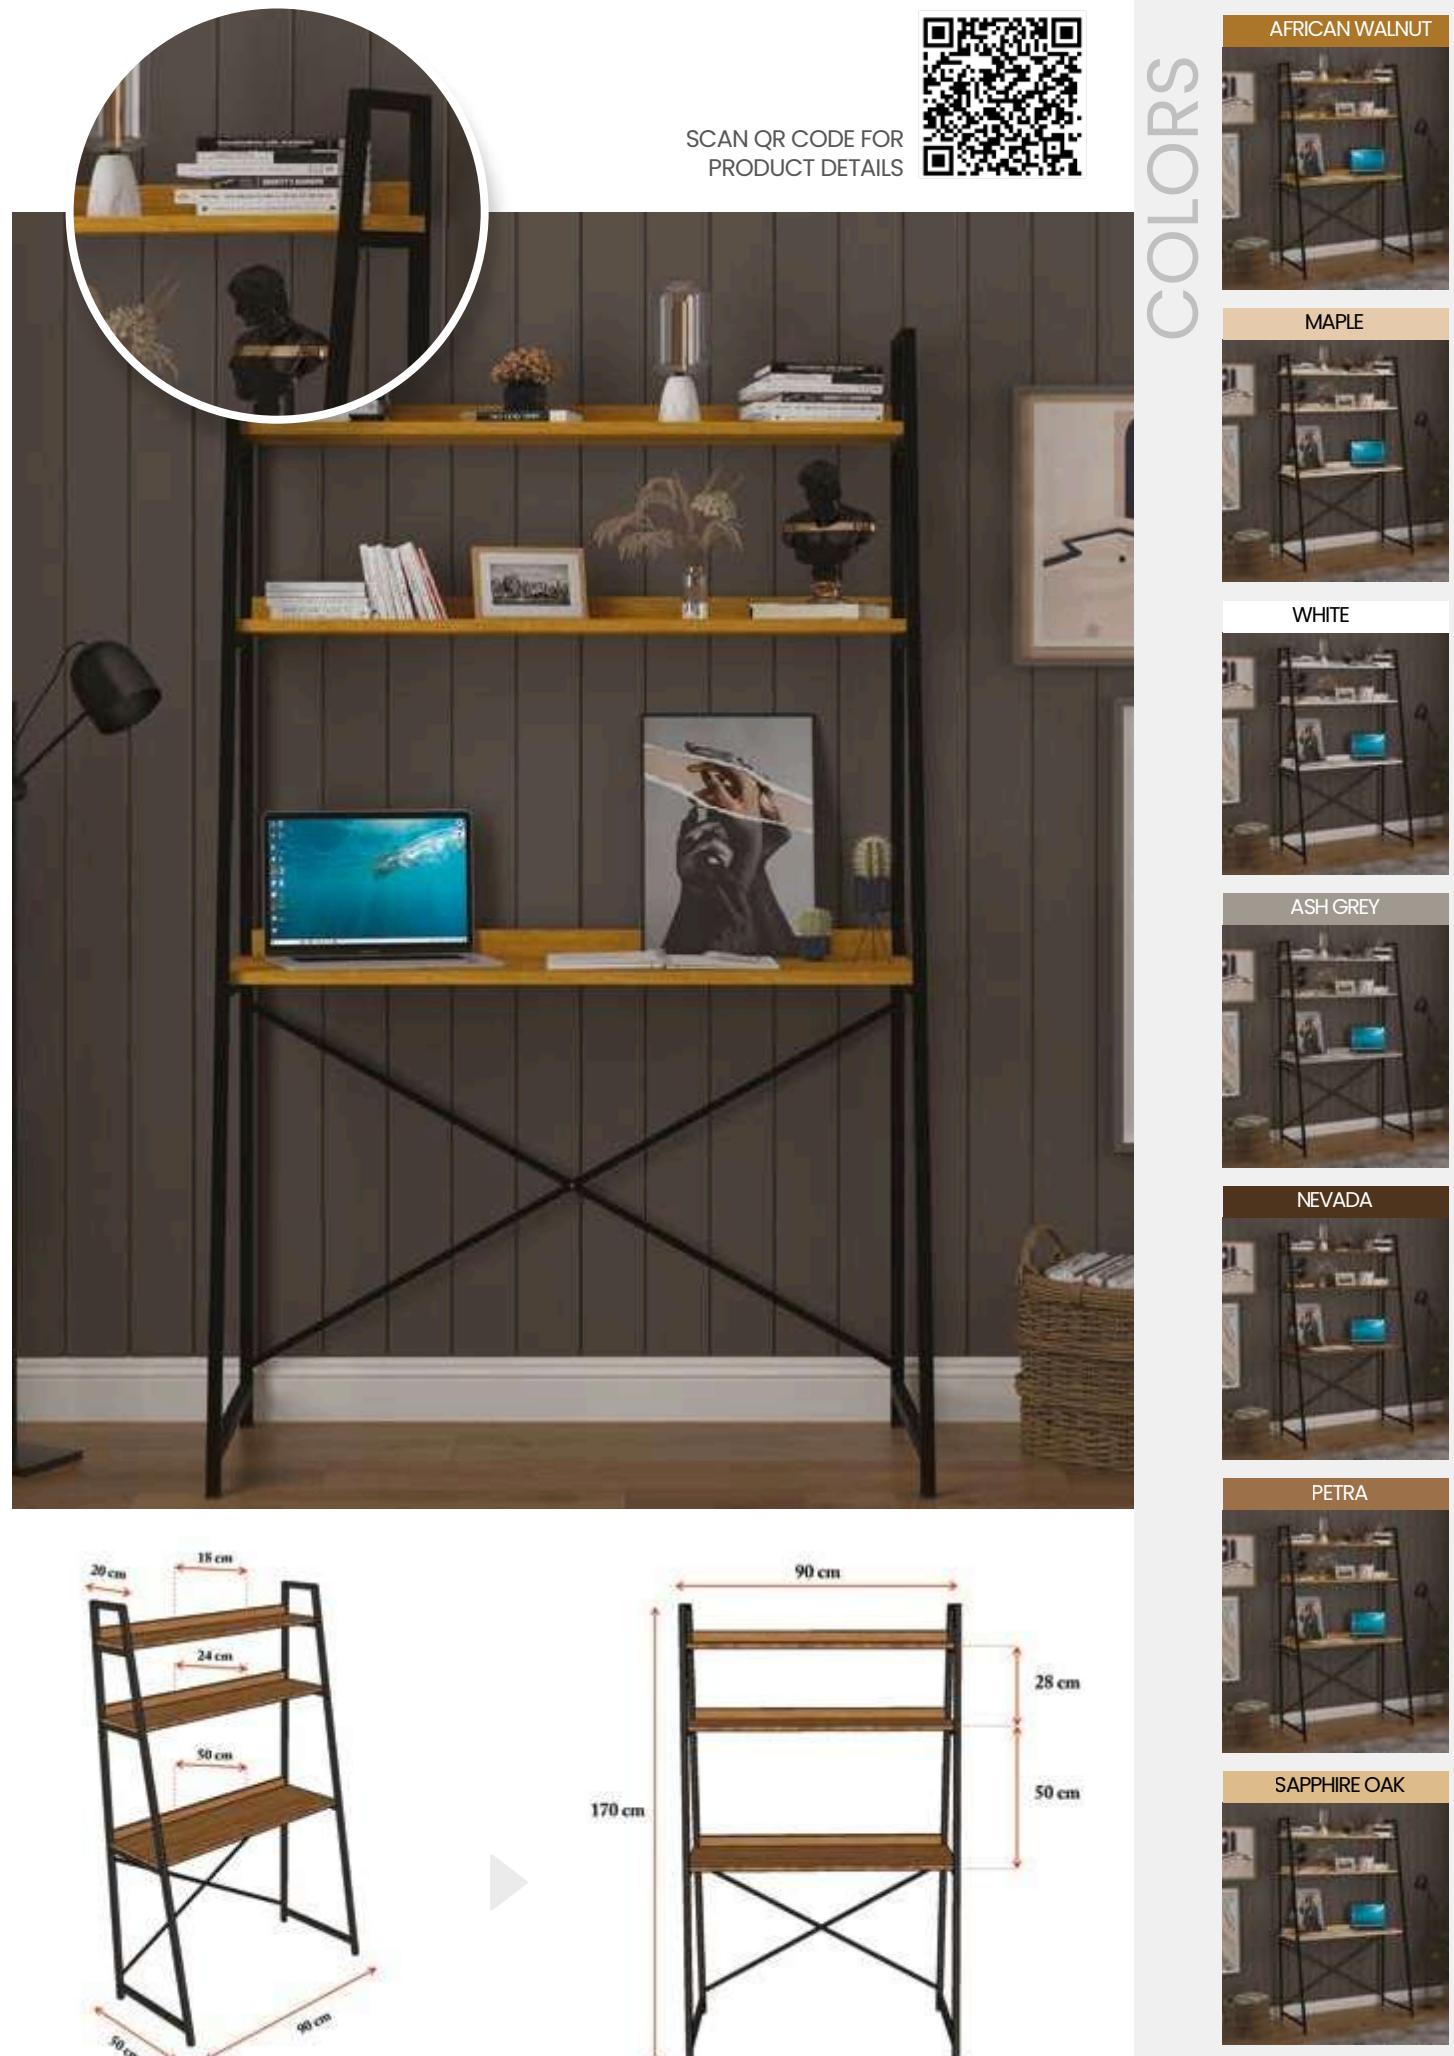

• Large Workspace: The main tabletop offers a comfortable surface for your laptop, keyboard, and other work tools.

• Multi-Tier Vertical Shelves: The shelves located above the workspace provide a perfect vertical storage solution for organizing your books, decorative objects, or office supplies.

• Industrial Design: The ladder-type design, reflecting the modern combination of metal and wood, adds industrial elegance to its environment.

- Edge Banding: PVC edge bands are used on the edges of all MDF-LAM parts to prevent deformation.
- Connection System: A sturdy and aesthetic joint is provided by using the Minifix system for the connection of all wooden parts.
- Additional Equipment: Static-painted metal frame, metal X-cross connection that adds maximum stability to the unit, and profile plugs that prevent floor scratches

METAL STUDY DESK

Product Features and Technical Details

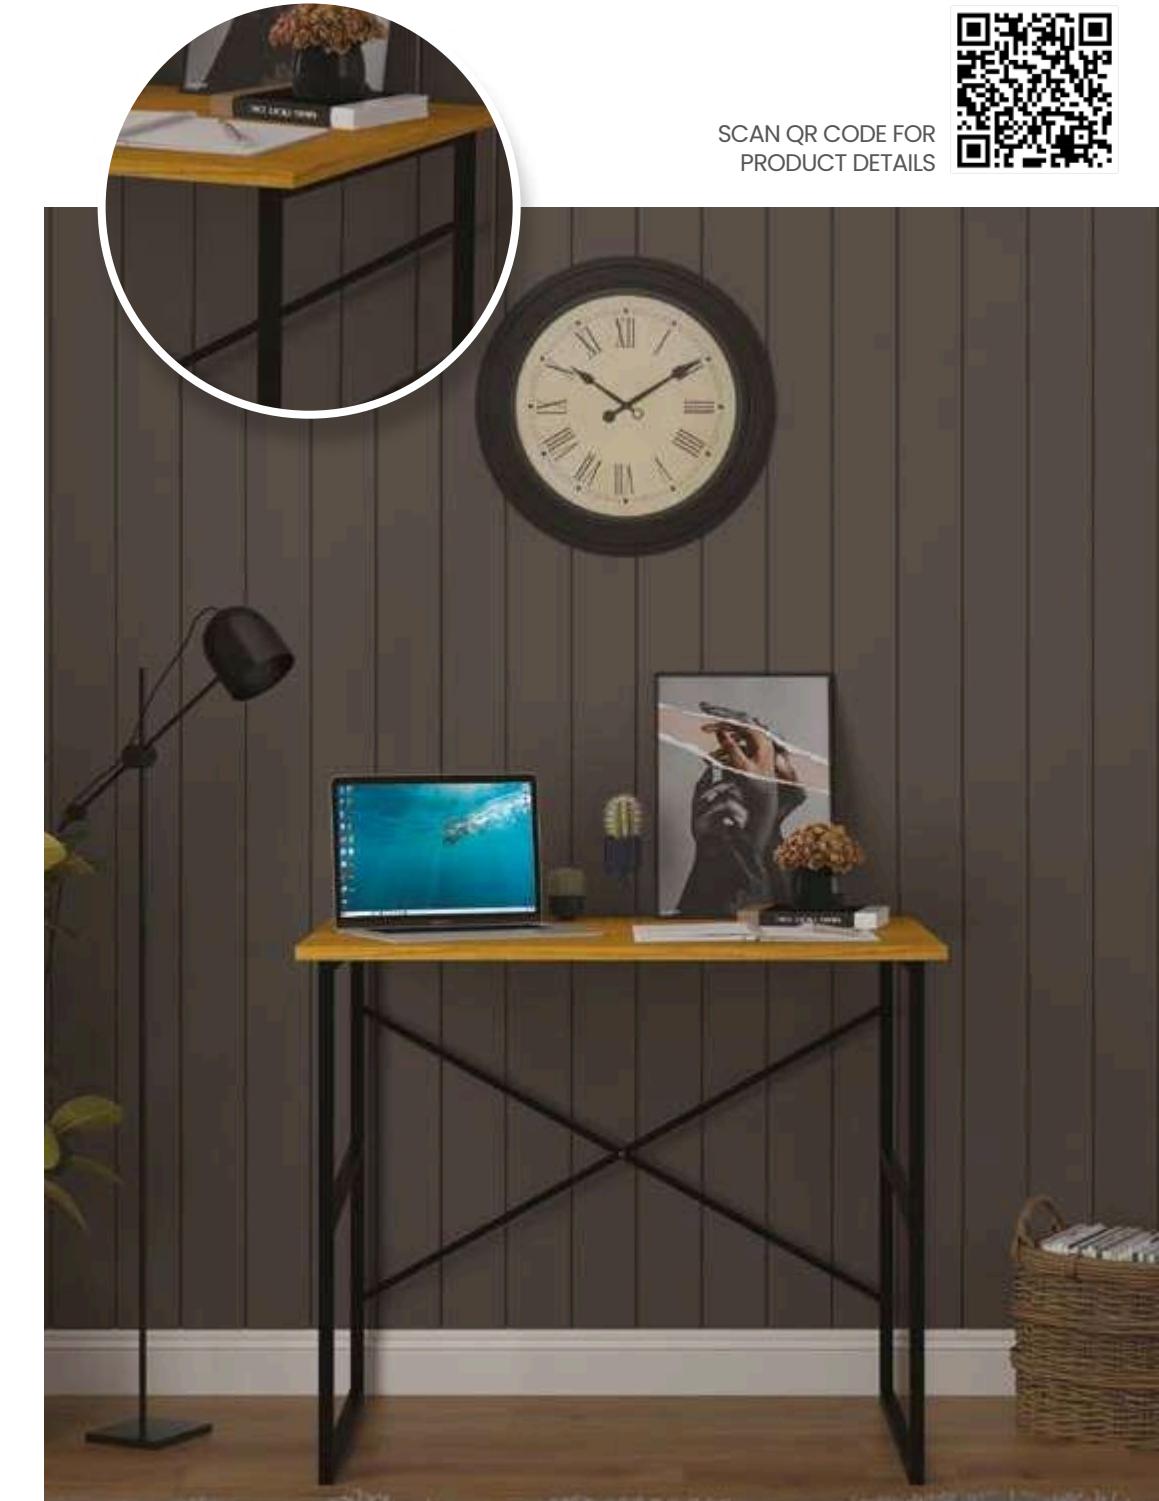

Model: METALCM02

- Material Structure: The table surface is manufactured from scratch-resistant 100% Melamine Faced MDF. The frame system consists of a robust metal profile finished with electrostatic powder coating.
- Interior Design / Functions: • Large Work Surface: The main tabletop provides a spacious and ideal area for your laptop, monitor, keyboard, and other work essentials
- Minimalist and Industrial Design: Combining the natural warmth of wood with the modern and strong lines of metal, it blends seamlessly with any decor.
- Edge Banding: PVC edge bands are applied to all edges of the Melamine Faced MDF tabletop to prevent deformation.

• Connection System: A Minifix system is used for all wood-to-metal connections to ensure a sturdy and aesthetic assembly.

• Additional Features: The electrostatic powder-coated metal frame features a metal cross-brace connection for maximum stability and durability, along with profile end caps to prevent floor scratches.

Product Specifications and Technical Details

- Model: KAHVE01
- Material Structure: The entire body and doors are produced from 100% MDF-LAM material, which is resistant to scratches and wear.
- Internal Functions & Design:
 - Open Top Shelves: A 2-tier shelf system designed to display frequently used items such as cups, mugs, coffee and tea canisters, or to place decorative objects.
 - Large Countertop Space: Provides an ideal work and preparation surface where you can easily place small household appliances such as coffee makers, kettles, or blenders.
 - Closed Bottom Cabinet: Provides a spacious storage area with two doors and one internal shelf, allowing for the organized storage of provisions, kitchen utensils, or less frequently used items.

- Back Panel: A 4 mm MDF-LAM panel is used to increase the overall durability and stability of the product.
- Edge Banding: PVC edge banding is present on all edges to prevent deformation and provide aesthetic integrity.
- Connection System: Minifix fasteners are used at all connection points to ensure a sturdy structure.

COFFEE STATIONS

Product Specifications and Technical Details

- Model: KAHVE03
- Material Structure: The entire body and doors are manufactured from 100% MDF-LAM, which is resistant to scratches and wear.
- Internal Design / Functions:
 - Closed Top Cabinets: A three-door upper cabinet system designed to store less frequently used kitchenware, provisions, or glassware sets while protecting them from dust.
 - Open Cup Shelf: An aesthetic and practical open shelf section ideal for keeping daily mugs, cups, or small spice jars within reach.
 - Large Countertop Area: A spacious middle section where you can easily place small household appliances such as coffee machines, kettles, and blenders.
 - Microwave Oven Compartment: A special niche designed for your microwave oven, which otherwise takes up valuable space on your kitchen counter.
 - Large Bottom Cabinets: A wide storage area with 3 doors and internal shelving, ideal for pots, pans, provisions, and other large kitchen utensils.

- Back Panel: A 4 mm MDF-LAM panel is used to enhance the durability and balance of the product.
- Edge Banding: PVC edge bands are used on all edges to prevent deformation and provide a stylish appearance.
